The following is an examiner's statement of reasons for allowance:

The prior art of record fails to disclose or suggest a polyaxial screw and coupling assembly with a semi-spherical head, a cylindrical body of the type claimed, a two-piece interlocking coupling element of the type claimed, and a top locking nut. Regarding Ralph et al ('426), claim 1 distinguishes there over in that Ralph et al fails to show the constant diameter upper chamber portion and compression of the rod onto the cap portion.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
